Redeeming the Training Key

You only need to redeem the training key one time.

1. The training key will be provided by the instructor before class.
2. Navigate to <https://aka.ms/LearningCampus>
3. Sign in with your personal Microsoft account not your Corporate AAD account
 - If you do not have a personal Microsoft account, then create one here: <http://live.com>

4. Select WorkshopPlus from the navigation bar and click on My Training

5. Select Redeem Training Key.

6. Type in your **Event Training**

Navigating Virtual Lab Environment

Signing into the Virtual Machine

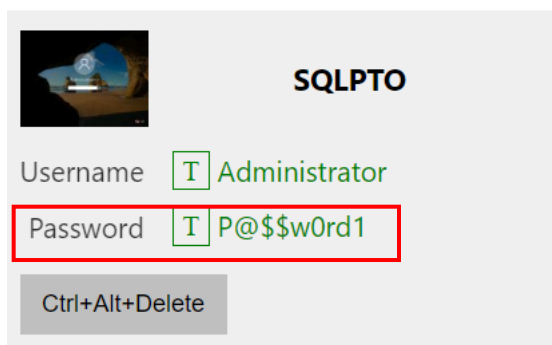

1. In the instructions area, click on Resources.

2. Then Click on the Ctrl + Alt + Delete button.
3. Click in the Password box and type in Pa\$\$wOrd1

4. You could also click the Green T from the resource box.

5. To end the lab, click on the three-line menu option in the top right.
- Save will close your lab and save any of your changes.
 - End will close the lab but not save any of your changes.
 - Split Window will allow you to move your instructions to a different monitor.

6. You can also use the lightning bolt in the top right corner to paste code from outside your virtual machine into your lab environment.
